Electric Lights.

Electric lights add to the comfort and cheerfulness of the home that will be greatly appreciated at this season of the year.

Electric lights are better adapted for decorative purposes than any other kinds of illumination. As they do not burn with an open flame, the danger of catching decorations on fire is overcome No matches are required to light them. Wire your house now.

When Buying Fuel

The consumer must always figure on the actual amount of heat and comfort that is got en for the money spent.

We believe that our connections of long standing, coupled with the large amount of fuel that we buy, make it possible for us to sell the very highest grades of Coal and Wood at prices that are cheapest to the consumer. A trial order of our Coal and Wood, or an opinion from some of our satisfied customers, will prove that our idea of putting quality first is correct. W. A. SMOOT & CO., INC.
